

Sculpture - Cut, Cast, Mould, Melt | Term Two, 2024

Explore form, materials and processes while working on a project of interest to you. In this class you can melt glass, model forms, make moulds or grind mineral based things. Use clay, glass, stone, cement, silicone or latex. Need help deciding on a project? Your tutor can help you decide. Work from Monday's Hot Arts class can be continued in this one.

Students who choose to work with clay should have attended the beginners ceramics class or equivalent. Maximum cast glass weight is 2 kg per project.

Content

- * Introductions and best practice guidelines explained
- * Individual and group discussions and demonstrations about specific processes which are relevant to your ideas and project
- * Move ideas into action and outcomes
- * Inspire and be inspired by creative classmates
- * Research artists of relevance to your own work
- * Refine ideas, skills, and your working knowledge of your materials as your project develops

Objectives

- * Develop ideas and create work in materials of interest to you using best practice guidelines
