
Creating Virtual Worlds: Learn Digital Painting and Drawing | Term One, 2024

Learn to create stunning and vibrant digital paintings and drawings in this class. Computers give you the freedom to explore and experiment without fear of making mistakes, as any mistakes you make can be undone in a matter of moments. In this class, beginner students can learn the basics of digital drawing and painting, and more advanced students can push their skills via one-on-one tutor guidance. Create effects that are not possible with traditional media, and learn to build up images that can be created from a variety of sources. The only limits are your imagination.
